## PROGRAMMING COST MANAGEMENT SOLUTION

The Nestor family of products gives MVPDs the tools to manage their largest expense: fees paid for content. From contract, subscriber and channel lineup management to programming payment and budgeting, and business intelligence, Nestor helps you plan, pay, predict and perform with more precision and less effort than ever before. Nestor processes over \$22 billion USD in programming expenses each year for MVPDs worldwide.

## Your Key to Effectively Managing Linear and Transactional Programming Payments

### AUTOMATES CRITICAL PROCESSES:

- Processing Linear & Transactional Accruals and Payments
- Map and aggregate account level subscribers
- Constructing Budgets
- Analysis of Programming Expenses

### PROVIDING MVPDS WITH:

- Simple and Accurate Payment Processing
- Better Programming Budgets
- Insight into Subscriber Trends and Margins
- Visibility into Contract Compliance
- Centralized Contract, Rate and CLU Management
