

OPERATIVE

INFO SHEET

SINGLE PLATFORM EXPENSE MANAGEMENT

The Nestor family of products gives operators the tools to manage their largest expense: fees paid for content. From contract negotiation to payment processing to business intelligence, Nestor helps you plan, pay, predict and perform with more precision and less effort than ever before. Nestor processes over \$22 billion USD in programming expenses each year for operators worldwide.

AUTOMATES CRITICAL PROCESSES:

- Processing Linear & Transactional Accruals and Payments
- Map and aggregate account level subscribers
- Constructing Budgets
- Analysis of Programming Expenses

PROVIDING MVPDS WITH:

- Simple and Accurate Payment Processing
- Better Programming Budgets
- Insight into Subscriber Trends and Margins
- Visibility into Contract Compliance
- Centralized Contract, Rate and CLU Management
